Kernel IMAP Backup and Restore

Installation/Uninstallation Guide

Install Kernel IMAP Backup and Restore

The installation process of the software involves a few easy steps. Before proceeding, make sure you have the setup file. If you don't have the setup, then go to the website and install it.

Product Page URL: https://www.nucleustechnologies.com/imap-backup/

Once you get the installer file, follow the steps below to install the software accurately:

- ✓ Locate **Kernel IMAP Backup and Restore** installer file and double click on it.

> **Note:** If the tool doesn't open, fails to install, and shows a warning message **"kernel-imap-backup-and-restore.pkg'' Not Opened**, follow these steps to fix it: Go to the **Mac System Settings > Privacy & Security > Security > Open Anyway.**

- ✓ Now, again open the tool and follow the on-screen instructions.
- ✓ Once installation is done, a success message saying **Setup Installation Complete** appears on screen.
- ✓ Click on the **Finish** button to launch the software.

After successfully completing the installation process, a software shortcut will be added to the **Windows Start Program** menu. You can either launch the software from the Program Menu or create a desktop icon to directly launch it.

Uninstall Kernel IMAP Backup and Restore

You can uninstall Kernel IMAP Backup and Restore from your system with two methods listed below:

- ✓ From the Windows **Start** menu

- ✓ From the **Control Panel**

Uninstall from the Windows Start Menu

- ✓ Click on the **Start** menu and go to **All Programs**.
- ✓ Click on **Kernel IMAP Backup and Restore » Uninstall Kernel IMAP Backup and Restore**.
- ✓ You will get a warning message before uninstalling the software on the screen.
- ✓ Click on **Yes** to uninstall the software.

Uninstall from the Control Panel

- ✓ Click on the **Start** button, then **Control Panel**.
- ✓ Go to **Programs and Features** and look for **Kernel IMAP Backup and Restore**.
- ✓ Right-click on Kernel IMAP Backup and Restore and click on the **Uninstall** button.
- ✓ You will get a warning message before uninstalling the software on the screen.
- ✓ Click on **Yes** to uninstall the software.

Kernel IMAP Backup and Restore will be successfully uninstalled from your computer system.
