

What's New

In Kernel IMAP to Office 365

This document illustrates the latest updates to Kernel IMAP to Office 365 20.5

Introduction

Kernel IMAP to Office 365 allows quick and easy migration of IMAP mailboxes to Microsoft 365.

This utility is empowered with smart features like selective data migration (migrate data based on date/item type, exclude deleted/empty folders, etc.) bulk migration using CSV file, and many more.

The latest version of Kernel IMAP to Office 365 20.5 now offers improved IMAP connectivity that helps in importing IMAP mailbox data to Microsoft 365 more efficiently.

The trial version allows you to migrate up to 10 items per folder from an IMAP mailbox.

Latest Enhancements

Kernel IMAP to Office 365 Version 20.5 has the following updates:

- Better IMAP connectivity for IMAP email clients like Yahoo, Gmail, AOL, etc.
- Smooth folder expansion for IMAP mailboxes
- Fixed minor issues to ensure better performance
- Fast and secure migration of IMAP mailboxes to Microsoft 365 mailboxes.

The added features in the latest version have improved the overall speed and accuracy of the migration process.
